Life Science Campus Master Planning
Lake Nona, Florida

Pioneering Community

A 7,000 acre mixed use park, Lake Nona Medical City is the largest ground-up master planned community in North America in the 21st century.

Living Building

The first of its kind truly flexible building infrastructure with built in ease to expand, contract and reconfigure base building services to accommodate a broad range of end-users. Masterfully completed in an aesthetically pleasing environment.

Master Planning

Four, three story buildings totaling 400,000 square feet, along with structured parking alongside residential, commercial and golf developments.
