

Progenics Pharmaceuticals

Laboratories and Administrative Offices

Tarrytown, New York

Laboratory Build-Out

BAM provided full architectural services for a build out of new neurological, biology and chemistry laboratories with vivarium, BSL2 Lab and cold storage.

Improved Facilities

We created a modernized core, with new offices, conference areas, new HVAC systems, new animal handling areas and handicap accessibility.

On Budget and On Schedule

Collaborating with a construction management firm, the preliminary concepts through construction document completion adhered to budget and schedule.
