

St. Vincent's Medical Center

EP Lab and Hybrid Operating Room

Bridgeport, Connecticut

Continuing Collaboration

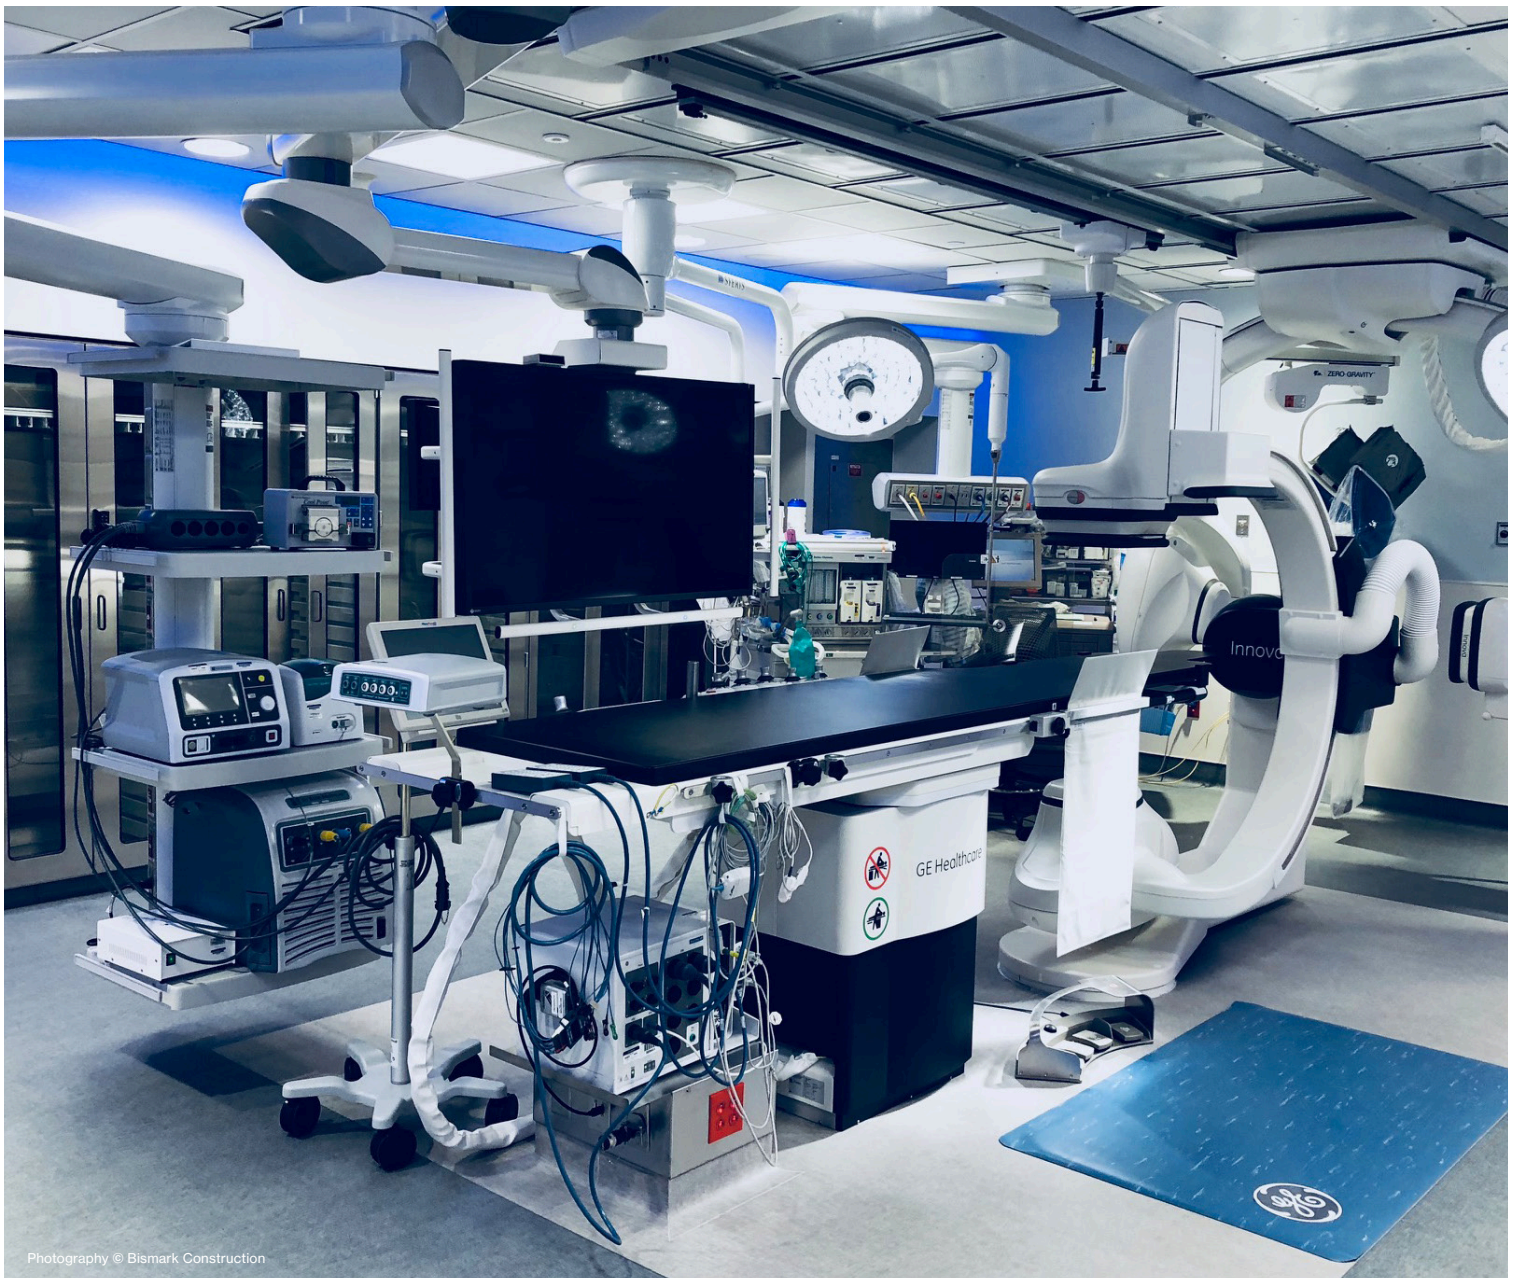

Following numerous successful collaborations with St. Vincent's Medical Center, a recent project focused on an upgrade of one of the medical spaces into an EP Lab and Hybrid OR.

Healthcare Leader

A part of St. Vincent's commitment to deliver the best medical care, this state-of-the-art operating room features new equipment to treat patients more efficiently.

Positive Client Reception

This project marks BAM's second Hybrid OR with St. Vincent's Medical Center, and the new space received positive comments from the staff and community during the ribbon cutting ceremony.
