

# Acorda Therapeutics

## Workplace Expansion

Ardsley, New York

### Transformation Refresh

Working together again, the BAM and Acorda teams worked to update our first engagement to refresh and re-energize the open office environment to maintain positive staff morale, high productivity and low staff turnover.

### Variety of Conference Areas

Renovation creates new areas for collaboration, formal training, areas for smaller groups and larger meetings.

### Communication and Collaboration

The new office design encourages effective communication among employees and provides a variety of flexible options, tailored to Acorda's fluctuating conferencing needs.
