

BioMed Realty Trust

Building 767

Acquired by Blackstone
Tarrytown, New York

R+D Innovation

One of the first east coast life science incubator environments for early stage life science organizations.

Sustainable Solutions

BAM defined the system requirements and cost implications for meeting LEED certification. Working with the client, BAM outlined sustainable intentions, such as recycling demolition debris, using low VOC paints, and re-using material where feasible.

Premier Facility

The result was a modern facility created with welcoming signage, improved circulation, and efficient work, meeting and public spaces.
