

BioMed Realty Trust

Built To Suit Master Plan

Acquired by Blackstone
Mount Pleasant, New York

Master Planning

The project consists of a campus complex that acts as the front door to BMR's campus, and the design relates to the existing buildings while maintaining its own identity.

Research Campus

The 300,000 square foot project includes a 50,000 square foot vivarium, conference center and a 300 person auditorium.

State-of-the-Art Spaces

Two thirds of the space are maintained for lab use, and the other third is tailored to administrative and workplace needs.
