

Studio Upgrade

Studio 6B, where Jack Parr had his famous show, had to be upgraded and enlarged to accommodate Late Night with Jimmy Fallon.

Expanded Stage

The band The Roots would be a prominent element on the show, requiring an enlargement of the stage.

Form and Function

One of the first projects to transform a historic studio for dual roles as both an active studio and NBC tour focal point. Seating taken from the famous Radio City Music Hall was renovated and installed adding authenticity and ambiance.
