

Regeneron Pharmaceuticals

DNA Learning Center

Sleepy Hollow, New York

Fostering STEM Interest

A dynamic, on-site location for high school students to conduct research in high-end labs used by professional scientists.

Academic Environments

In nearby classrooms, teachers may use smart boards and other top-tier technology to build upon the science students are working on at their benches.

Engaging Design

Matching the colorful finish standards in other areas of Regeneron, the DNA Learning Center teaches students that science is fun, and the work environment may be fun, too.
