

SCOR

Regional Office

Chicago, Illinois

Strategic Future

Building on their vision for the future, the CEO and team at SCOR collaborated with BAM to propel the Chicago business unit into high gear.

Enhanced Workplace

To jump-start the initiative, SCOR chose to relocate from their sleepy suburban location to a customized, dynamic working environment in bustling downtown Chicago.

Realizing Goals

Increasing productivity and visibility in the marketplace were supported by site selection and design of a forward-looking workplace in the Willis Tower, formerly the Sears Tower.
